Battery Installation and Operation

- Rokenbok recommends premium alkaline batteries for use in your Rokenbok machines.
- Batteries are to be inserted with correct polarity as shown.
- Do not mix old and new batteries.
- Do not mix alkaline, standard (carbon-zinc) or nickel cadmium batteries.

**Dump Truck**

Turn-on the vehicle by pressing the black button on the cab. The unit’s headlights will illuminate.

The vehicle can be turned-off by pressing the black button again, or will automatically power-down after five minutes of non-use.

To re-start the vehicle, press the black button.

**Conveyor**

Your Motorized Conveyor will activate for several seconds to indicate correct battery installation.

The Conveyor will activate automatically when loaded with ROK balls.

**Controller**

To experience all the Special Features of your ROK Star Controller please refer to the ROK Star Guide.

1. **Select Your Machine**

Aim the controller at the Dump Truck’s receiver in the red tail lights. Use the large directional wheel to drive and turn. Use the A & B buttons to dump.

2. **Operation**

For optimal control, aim the controller at the Rokenbok machine.

**Switch in Disabled Position**

Note: your ROK Star Controller is pre-set with the R Select Function disabled. This setting is for a younger child playing with a single machine. See the ROK Star User Guide.

When playing with more than one machine, move the switch to the enabled position. This allows selecting which machine to control from any number of Rokenbok machines. See the ROK Star User Guide.
ROK Star is a unique technology that lets you:

• Control any number of Rokenbok machines with a single, wireless controller.
• Switch between vehicles on the go.
• Everyone can play! Add as many ROK Star controllers as you want.
